

Afera, The European Adhesive Tape Association

Membership

**Know more.
Shape more.
Connect faster.**

What Afera Membership gives your company.

What does Membership give your company?

Three advantages that are hard to build alone:

1

Shared standards

Free access to the annual Afera Test Methods Manual and a role in shaping new test methods, norms and guidelines.

2

Regulatory leverage

Guidance, representation and a collective voice on the E.U. files affecting adhesive tapes, release liners, raw materials and downstream users.

3

Sharper market intelligence

Free access to Afera's annual European Pressure-Sensitive Tape Market Report and Member Market Trends Survey results.

Standardisation first

For many Afera Members, standardisation is the number one reason to join.

- Free access to the annual Afera Test Methods Manual
- Direct input into new test methods, norms and guidelines
- Access to Round Robin Testing and the Next-Level Test Methods Working Group
- Stronger consistency, quality and credibility across the value chain.

Not just access to standards, but a seat at the table where future methods are shaped.

Regulatory affairs: information, guidance and representation

Afera helps Members follow, understand and respond to regulatory developments affecting the adhesive tape value chain.

- Quarterly RAWG meetings and detailed Member updates
- Tracking the E.U. regulatory files that matter most, including PPWR, PFAS, microplastics, pellet loss, EUDR and plastic packaging taxes
- Co-ordinated Member input to consultations, task forces and standards work
- Engagement with the European Commission, ECHA and partner associations where tape-specific use cases must be understood.

Earlier signals, better context and a collective voice on compliance, market access and customer demands.

Market data that sharpens decisions

Afera Membership gives companies a clearer view of the business environment in Europe.

- Free access to the annual Afera European Pressure-Sensitive Tape Market Report
- Annual Afera Member Company Market Trends Survey results
- Member Strategy Survey results when Afera tests priorities and direction
- Event presentations and proceedings that track market, technical and regulatory themes.

Better benchmarking • better timing • clearer market signals

Working channels and practical tools

Membership becomes more valuable when companies participate.

- Join the Committees, Working Groups, Workstreams and urgent-topic Task Forces that shape Afera's agenda.
- Access sustainability guidance on PCFs, release liners, waste management and circularity
- Purchase TACK, Afera and IVK's web-based PCF-calculation tool for adhesives and adhesive tapes
- Apply TACK's validated, sector-specific methodology to support more credible Scope 3 reporting.

Participation turns Membership into influence. TACK turns PCF data into practical reporting.

Events, learning and exhibition opportunities

Discounted Member access, stronger networking and practical learning across Afera events

- Preferential Member rates on Afera events
- Attendee lists and event proceedings for registered participants
- Practical learning and Member access through the Annual Conference, Technical Seminar, Tape College and Committee Meetings
- A new Tabletop Exhibition at European Tape Week 2026, positioned at the centre of the week's networking flow.

It was a wonderful conference with really interesting and inspiring lectures... Where the tape industry is concerned, this is the place to be.
-IVK (German Adhesives Association)

You have the advantage of being able to connect with so many people here. Like many, I think running both major events together is a successful formula – hugely advantageous. -certoplast

Visibility, reach and practical extras

Membership gives companies practical routes to be seen and found across the industry.

- Member directory entry and “Member of Afera” logo-link
- Access to Afera communications and company visibility through Afera Insights, afera.com and Afera’s LinkedIn channel
- Access to media and Member contact lists
- Spotlight articles, sponsorship and advertising routes to senior decision-makers, technical experts and industry leaders
- Selected partner discounts and promotions.

More visibility, stronger contacts and lower-cost access to selected tools, reports, sponsorship and exhibition routes.

Members-only access

Once approved, your company receives onboarding support, login credentials and access to Afera's Members-only area.

- Regulatory and sustainability documents and guidance
- Committee, Round Robin, Working Group, Workstream and Task Force information
- Publications, proceedings, curated webinar listings and wider industry information
- Afera Team and Member Company contacts
- Survey results, tools, discounts and other Members-only resources.

Designed to make Membership usable from day one.

How different Member types benefit

Afera serves the full adhesive tape value chain, but the return is different for each group.

Manufacturers

Stronger standards, earlier regulatory warning and market intelligence

Suppliers

Closer customer access, clearer market signals and targeted visibility

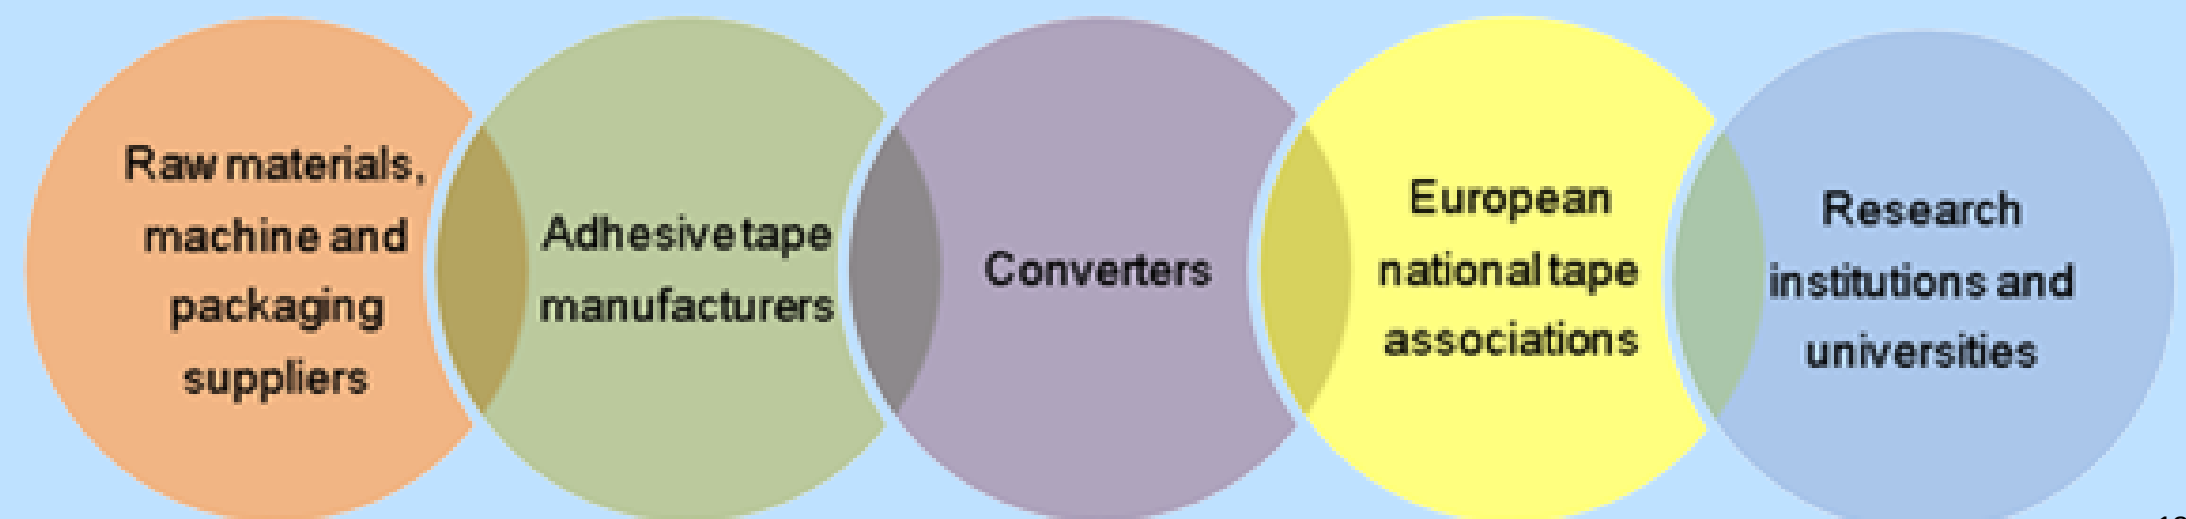

Converters

Better upstream access, stronger market awareness and a clearer industry voice

Related associations, organisations and institutes

Pan-European co-ordination and stronger industry alignment

Shared core value, tailored business payback and a broader governance voice across the value chain.

A strong network across the value chain

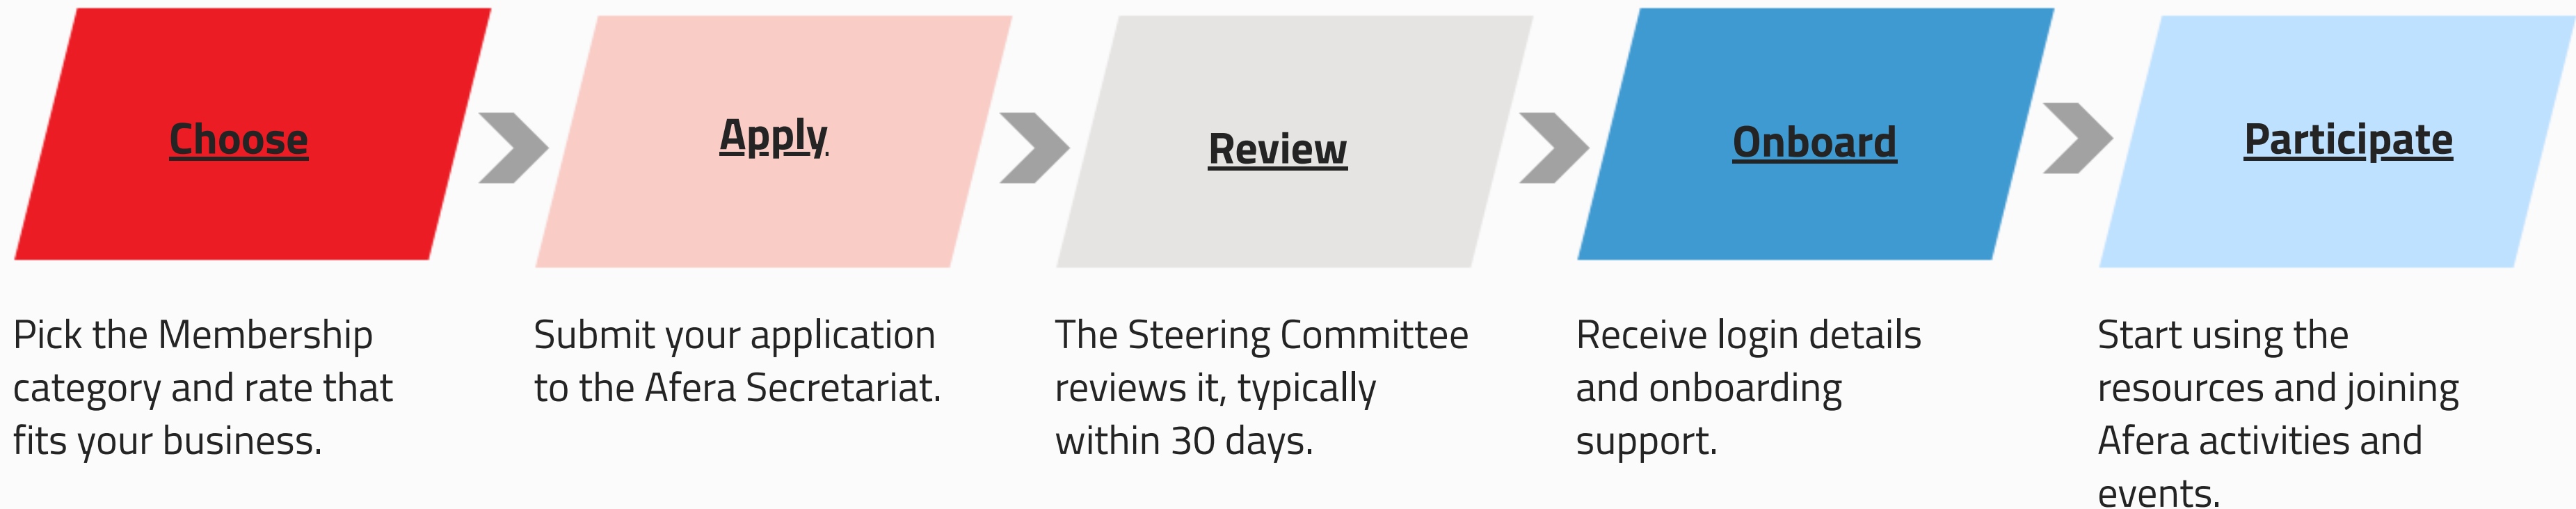

Join more than 120 Member Companies across 20 countries in Europe’s adhesive tape value chain.
